

The School Committee is looking for interested citizens to apply to be one of its two designees to the Permanent Municipal Building Committee (PMBC).

The PMBC is comprised of five (5) appointed members plus two (2) members for specific municipal or school projects assigned to it. Currently there are two school projects assigned to the PMBC. The duration of the School Committee designee to the PMBC would be until the completion of the school projects as determined by the School Committee.

Role of the PMBC

The role of the PMBC is to oversee and direct the design and construction of selected Town building projects by providing technical, project management and cost and schedule expertise. The PMBC may also provide advice on projects not under its direct oversight if requested by the Board of Selectmen, the School Committee, the Public Buildings Director or the project sponsor. The PMBC may provide technical advice on the feasibility, cost and schedule of projects under consideration of the Town, if requested.
